Address: Betim – MG, Brazil
Postal Code: 32675-876

Phone: +55 31 98885-9947

I'm a developer passionate with technology, trying to make people life better thru it. I build softwares since 2013, but professionally since 2018, I'm focused on the .NET platform, developing, testing and maintaining enterprise software applications. I have experience on building APIs, websites, mobile apps, workers and softwares in general.

Work experience

.NET Developer – InMetrics

07/2021 – Present
São Paulo, SP

- Development of new systems and features for brazilian banks, using the following technologies:
 - Banco Neon – .NET Core, RabbitMQ, Kafka, MongoDB, SQLServer, GoCD and Rancher.
 - Banco Carrefour – .NET Core, RabbitMQ, SQLServer, Apigee, Jenkins and Openshift.

.NET Developer – ConferIR

02/2021 – 07/2021

- Firebase

- Docker
- Git
- Jira

Agile Methodologies

- Scrum
- Kanban

Languages

Portuguese – Native

English – Upper-Intermediate

Projects

Irmão do Jorel Wiki

Individual Project

05/2020 – Present

Belo Horizonte, MG

The app and website shows informations about the characters and episodes of a Brazilian cartoon.

The app was built with Google's Flutter framework and the website was built with Angular + Bootstrap.

To look for the data, it consumes a Rest API in .NET Core with a MySQL Database built by me as well.
