Summary

I'm a software developer passionate about leveraging technology to improve people's lives. I have 7 years of experience developing, testing, and maintaining enterprise software applications. I've also built APIs, websites, mobile apps, background workers, and various software solutions.

Skills

- C# | .NET | MongoDB | MSSQL | NoSQL | Git | JavaScript | TypeScript | Angular | GraphQL
- Google Cloud Platform (GCP) | Cloud Computing | Pub/Sub | Kafka | Docker | Gitlab | CI/CD | XUnit | Unit Testing | OOP | Apigee
- Microservices | Backend | Frontend | Full-Stack | Portuguese, English – *All professional proficiency or above*

Experience

.NET Developer **Banco Carrefour** *São Paulo, SP, Brazil* **08/2022 - Current**

- Developed and maintained scalable microservices to retrieve customer data, reducing partner API calls by 83%, using technologies like **C#**, **.NET**, **MongoDB**, **GraphQL** and **Google Cloud Platform**.
- Designed and implemented scalable APIs and background workers to log customer actions for auditing, enhancing the performance by 52%, using **C#**, **.NET**, **MongoDB** and **Google Pub/Sub**.

.NET Developer **InMetrics** *São Paulo, SP, Brazil* **07/2021 - 08/2022**

- **Consultant** – Developed and deployed microservices using **.NET Core**, **MongoDB**, and **SQL Server** for Brazilian banks, improving system performance, scalability, and compliance with industry standards.

.NET Developer **ConferIR** *São Paulo, SP, Brazil* **02/2021 - 07/2021**

- Developed and maintained the new company's **.NET Core** based **REST API**, which manages client data and automates income tax processing. Delivered enhanced functionality, scalability, and performance improvements.
- Provided ongoing support and enhancements for the company's legacy software built on **.NET MVC**, ensuring stability and functionality during transition phases.

.NET Developer **Sinqia** *Belo Horizonte, Brazil* **10/2020 - 02/2021**

- Developed new features and maintained company systems built on the **.NET platform**, ensuring robust functionality, performance, and reliability across enterprise applications.

.NET Developer **Donuz** *Betim, MG, Brazil* **05/2018 - 09/2020**

- Developed and maintained company systems that integrated with third-party software, enhancing functionality and ensuring seamless communication between platforms.
- Led the development of a new software solution using **C#**, **.NET**, replacing and optimizing the legacy integration software, resulting in improved efficiency and maintainability.

Technical Support Intern **Liga Sistemas** *Belo Horizonte, Brazil* **10/2017 - 05/2018**

- Provided technical support to clients of the company.
- Executed operations for data consultation, maintenance and troubleshooting on the Firebird database.

Education

Bachelor of Computer Science **Faculdade Pitágoras** *Betim, MG, Brazil* **01/2016 - 12/2019**
